## Policy for School Accessibility and Effectiveness

Valuing Community, Compassion, Endurance, Friendship, Hope, Respect, Thankfulness, Wisdom

### 1 Introduction

**1.1** In our school we plan teaching and learning with a view to enabling every child to seek the highest level of personal achievement. To ensure that this happens, we will regularly monitor and evaluate our core purpose, so that we are in a position to make a judgement about how accessible and effective we are. This gives us information on which we can base future decisions about the development of our school.

In addition to striving for academic excellence, we will never lose sight of the personal, individual needs of each child and his/her well-being. Learning is primarily about enjoyment, excitement and wonder.

We believe that all our children:

- are of equal value regardless of their sex, race, background, creed, faith or ability,
- should have an inclusive education with equal access to opportunities and resources,
- should progress at a pace appropriate to them,
- are entitled to high quality, well planned and well organised teaching throughout the school, where learning is an enjoyable, challenging, reflective experience,
- should be supported to be caring, curious, confident and creative learners
- should be involved in and contribute to the daily life at school, the local community and the World beyond.

We aim to help everyone:

- Be happy and confident learners, encouraged to take risks and challenges within a safe and caring environment,
- Reach his or her full academic and social potential,
- Enjoy a broad and balanced curriculum enriched with a wide range of learning opportunities,
- Grow up with Christian and moral values, in partnership with parents, the Church and the wider community.

**1.2** Monitoring is the means by which we gather information. We do this systematically across a range of activities within our school.

**1.3** Evaluation is the judgement on the effectiveness of actions taken, based on their impact on the quality of children's learning.

**1.4** Monitoring and evaluation in our school are part of a planned process to ensure school effectiveness, involving a range of different people over the course of a school year. However we will aim to be open to the unexpected and flexible throughout the cycle.

## **2 School Development Plan**

- 2.1 Our self-evaluation process is a cycle for School Development. The components are:
- how well are we doing?
  - how do we compare with similar schools?
  - what more should we aim to achieve?
  - what must we do to make it happen?
  - taking action and reviewing progress.

The outcomes form the School Development Plan and are recorded in the Ofsted self-evaluation form, Head's reports, priority action plans and studio milestones documents.

## **3 Monitoring and evaluation activities**

### **3.1 The quality of teaching**

Staff and Governors are all involved in Teaching and Learning visits, Planning and Work Scrutinies, discussions with pupils and Pupil Progress Meetings. Teaching of all staff will be formally observed three times a year, details of which are in the Performance Management Policy.

### **3.2 The quality of children's learning**

In the course of their lesson observations, Teaching Staff, the Headteacher and Governors will gather evidence about the children's attitudes to work and the skills they are learning (**the Values-led Learning**). This will be reported back to staff and evaluations made about the impact to the School Development Plan. (See Governor Visit Guidelines) Parents, staff and children are involved in at least two formal discussions throughout the year about their child's learning. All colleagues will undertake, where appropriate, a scrutiny of children's written work in English, Maths and **Theme**. This involves the sampling of children's work from a range of abilities within each studio to inform the School Development Plan. Our children will be encouraged to reflect upon their own progress and self evaluate their learning skills. They will also be taught how to moderate and support others. Children learn best from their peers!

### **3.3 Leadership responsibilities on school priorities**

All staff are responsible for developing an enriched curriculum, purposeful and personal to our children. However the roles and responsibilities of those assigned to lead specific priorities for development will be to:

Support colleagues with the long and medium term planning process

Scrutinise children's work samples and feedback points for discussion on a weekly basis

Hold pupil discussions to evaluate their understanding and knowledge

Co-ordinate staff development when appropriate

Co-ordinate the action planning and review process when applicable to the School Development Plan

Liaise with other professional agencies and Partnership colleagues to support school development

### **3.4 The standards attained and achieved by children**

In the course of lesson observations, work scrutinies and pupil progress meetings staff and governors will gather evidence about the standards that the children are attaining and achieving in lessons.

The children's assessment results will be analysed by staff at least three times a year. The outcomes will be reported and discussed with Governors. Future targets for pupil and curriculum

improvement will be set in relation to the children's performance, LA and national benchmarks and teachers' forecasts.

### **3.5 The quality of teachers' planning**

Teachers will share their weekly planning on the S drive for the Head teacher and other colleagues. Planning is scrutinised three times per year alongside the children's learning outcomes.

### **3.6 Policy Review**

All policies will be reviewed annually. Finance and Staffing policies will be reviewed by staff and the Fabrics committee. Well Being and Teaching and Learning policies will be reviewed by staff and the Strategy committee. All will be presented to full Governors for ratification. A spirituality impact assessment may be used to analyse new school policies against our Church School's vision and values.

### **3.7 The actions set in our School Development Plan**

In July, all staff, Governors and a representative group of children meet to review and plan our priorities for the next three years. In the Autumn term staff devise action plans and milestone achievements against a number of key priorities. Twice a year staff and Governors evaluate progress towards these milestones and changes are made to the plans if necessary.

### **3.8 The Budget**

The Headteacher and School Business Manager supply the governors with budget updates, representing best value. This allows the governing body to monitor and evaluate spending patterns against the priorities for improvement identified in the school development plan. The planning cycle involves the governing body in evaluating the progress of the current School Development Plan as part of the next plan. This gives governors a clear view of the school's strengths and weaknesses.

### **3.9 Other related policies**

The School Accessibility and Effectiveness Plan will contribute to the annual review and revision of related school documents:

- "Inclusion - Equal Opportunities for All" policy
- Equality and Diversity plans
- Staff Development and performance reviews
- Health & Safety (including off-site safety)
- Special Educational Needs and Disabilities
- Positive Behaviour Policy
- School Improvement Plan
- Asset Management Plan
- School Brochure and Mission Statement
- Teaching and Learning Policy

The Headteacher and staff will review this policy annually in the light of national, local and school priorities.
